Technical specifications:

- ✓ Vertical folding in U
- ✓ Reinforced steel structure with aluminum tips
- ✓ Sequential vertical folding of every section
- ✓ Oven polymerized paint
- ✓ Pendulum auto leveling mechanism
- ✓ Mechanical incline corrector
- ✓ Manual lock
- ✓ Bearing pivot points
- ✓ Elastic boom tip forward and backward protection
- ✓ 5 vertically folding sections (12-14Mtrs)
- ✓ 7 vertically folding sections (15-16-18-21Mtrs)
- ✓ Dual steel cable anti-whiplash mechanism
- ✓ 50cms. Nozzle spread
- ✓ Simple or triple nozzle holders (depending on version)
- ✓ 5 or 7 water sections (depending on version)
- ✓ Elastic retention elements
- ✓ Lights and plate support
- ✓ Stainless steel nozzle holder pipes
- ✓ Requires 2 pressure-return circuits

INDEPENDENT HYDRAULIC SECTION  
OPERATION (OPEN/CLOSE)

Boom for phytosanitary treatment of crops with trailed or mounted sprayers:

- Bearing pivots (prevents pivot play from ever developing)
- Requires two return pressure– return circuits
- Nozzle holder pipes in stainless steel
- Nozzles in fan configuration, simple jet, ISO, yellow, blue, red
- Manual lock; oven polymerized paint

**OPTIONS**

- Joystick
- Hydraulic incline corrector + lock
- Spray foam marker
- LED lights in booms
- Lights and plate kit
- Trijet nozzle holders
- Long range nozzle Tips
